To Whom It May Concern,

Letter of Assessment

From 22-Jan-2025 to 18-Feb-2025, pursuant to our agreement with Red Guava Pty Ltd (Red Guava), elttam conducted a repeat baseline white-box security assessment of the Cliniko application, a Kubernetes security configuration review and an adversary simulation exercise to assess internal risks from a developer's perspective.

The engagement with Red Guava began with a briefing and walk-through. Subsequently, a dedicated team of 2 experienced security consultants conducted the security assessment over the specified period using a white-box approach, specifically targeting the Cliniko application, the marketing website, Kubernetes infrastructure and CI/CD pipelines.

The engagement concluded with a report walkthrough meeting where findings were discussed with stakeholders. A final report, detailing technical issues and offering remediation advice, was then provided to Red Guava Pty Ltd.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government, and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our clients secure their most important assets.

Sincerely,

Marcela Benetrix
Managing Consultant
