To Whom It May Concern,

Letter of Assessment

From 16-Mar-2026 to 31-Mar-2026, pursuant to our agreement with Red Guava Pty Ltd (Red Guava), elttam conducted a repeat baseline white-box security assessment of the Cliniko application.

The engagement with Red Guava began with a briefing and walk-through. Subsequently, a single dedicated and experienced security consultant conducted the security assessment over the specified period. The assessment of the Cliniko application followed a code-assisted white-box methodology, combining deep-dive source code analysis with manual dynamic testing to identify security vulnerabilities.

The engagement concluded with a close-down meeting where findings were discussed with stakeholders. A final report, detailing technical issues and offering remediation advice, was then provided to Red Guava Pty Ltd.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government, and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our clients secure their most important assets.

Sincerely,

Marcela Benetrix
Managing Consultant
